SUPERINTENDENT'S REPORT

To the School Board and Citizens of Swanzey :

I submit, herewith, my second annual report.

BUILDINGS AND GROUNDS. Following the recommendations made one year ago the condition of the school buildings has been greatly improved. Electric lights have been installed in all the buildings, save No. 9, which give adequate light for the pupils' work on the short, dark days during the winter months, and make the buildings available for community gatherings in the evening. At East Swanzey an excellent piece of work was done in increasing the window area in both rooms. A bulk head was also built and the cellar otherwise improved. The Westport building was repainted. The grounds at the Cutler school were partially graded, and the interior woodwork and desks were re-varnished and the ceilings repaired. It looks now as though before many months adequate playground facilities will be made available for children of No. 9 school.

Following this record of progress there still confronts us the problem of improper lighting at the Cutler school. In addition to the usual minor repairs several buildings show the need of outside painting; perhaps the following indicates the order in which they should be painted, Cutler, Factory, East Swanzey, and Number Nine. I believe the School Board's budget contemplates the first two to be done this summer. The policy that the district is following in regard to its school property will, in the course of two or three years, bring it back to A-1 condition.

HEALTH. The children were given their annual physical examination in the early fall and the results appear in tabulated form on another page. Since the examination a dental clinic has been held in the various schools and nearly 100 chil-

dren were treated. For this work we are greatly indebted to the district nurse, Miss Lang. She was assisted this year by Dr. A. A. Danforth of Manchester. I feel that this is a great opportunity for the children and I trust that all parents will avail themselves of it. Miss Lang has also taken several children to the Keene hospital to have adenoids and diseased tonsils removed.

All children in the schools have now been subjected to vaccination. Parents of those children who have been vaccinated but once or twice without effect should, during the summer months, comply with the law and inoculate the children three times unless it works sooner.

According to the appropriation made a year ago, music and drawing have been taught in all of the schools during the year. The School Board's budget contemplates the continuance of this work.

The attendance at Number Nine and East Swanzey was low last year, in fact, too low. I have reason to believe that the showing this year will be better, and I trust that parents will assist along this line.

I think the general standard of the schools has improved during the year and I wish to express my thanks to you, the members of the board, to the teachers, pupils and the citizens of Swanzey for their splendid spirit of loyalty and co-operation, shown toward the work of education.

Respectfully submitted,

WESLEY H. DOUGLASS,

Superintendent of Schools.

Winchester, N. H., February 17, 1927.

VITAL STATISTICS

To the Selectmen:

In compliance with an act of the legislature, passed June session, 1887, amended by the legislature of 1889, requiring "clerks of towns and cities to furnish a transcript of the record of births, marriages and deaths to the municipal officers for publications in the Annual Report," I hereby submit the following:

NO CONQUEROR can make the infinitely difference from what it is; no statesman can carry the world's affairs beyond the ideas and capacities of the generation of which it is made; but nations—*I use the word in the widest sense*—can do more than other conquests or statesmen; they can create a new class and through this class a new state and in so doing create the world of our time.
—H. G. WELLS.

YOU MAY OFFER the people Utopian dreams and a quick climb up the ladder of civilization, and they may believe you. But only centuries of education have been able to give results.—ARTHUR BESSEMER.

AS WE REFLECT upon the course to history, its outcome, and to appreciate how little we owe to governments and how much to education and to the method and conscientiousness of scientific inquiry.

If we have any assurance for the future, it lies in education, in the dissemination of correct information, in creating curiosity of the investigations of science, in the formation of a sound public opinion which shall rest on a broad scientific basis.—CHARLES EVANS HUGHES.
